Documentation Requirements for Medicare Patients

Additional documentation may be requested to document medical necessity.

Medicare requires that certain documentation be documented in the patient's chart/record in order for Medicare to reimburse for catheters. Medicare also highly recommends these documents be collected and maintained by the provider of supplies.

History of urological condition to include:

- Permanency: Medicare defines permanency as a condition that is expected to last greater than 90 days
- Diagnosis: Urological diagnosis
- Frequency: Frequency the patient is instructed to catheterize
- · History: Duration of patient's condition

Reference: the requirements listed above can be referenced by referring to LCD for Urological Supplies (L11566). The above information is provided for reference only and is not intended as advice or instruction on how to complete a patient's detailed written order.
